

FOCUS ON THE WHY?

No Code bounty – tezos-contrib

Hacker: Ivan Molto (ivanmolto)

Metamorphosis Hackathon, 2022

Current Situation

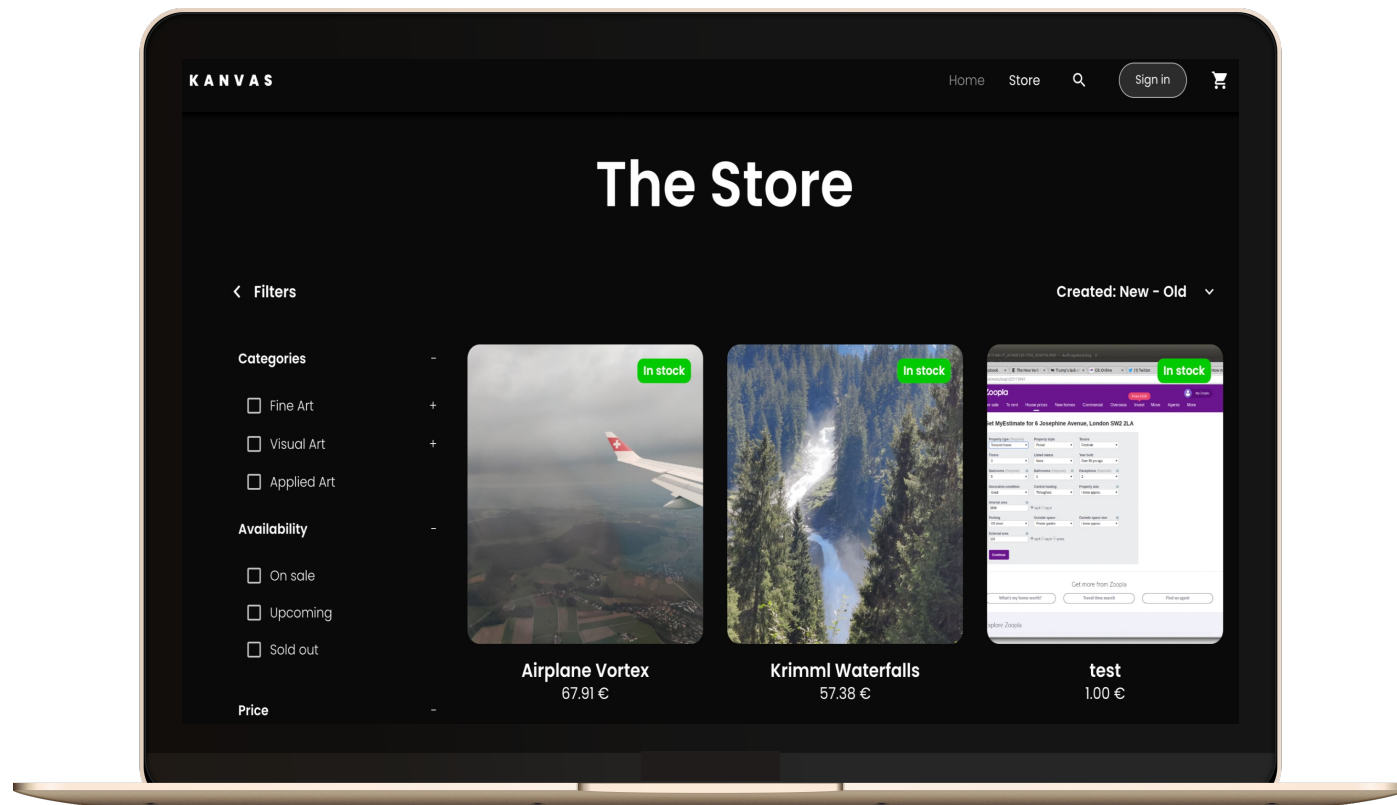

Kanvas NFT Store

Sell NFTs

Create and moderate NFTs

TZ Storefront

A metamorphosis from NFT Store to a full-fledged headless e-commerce platform

Features (I)

Modern Tooling

Blazingly Fast

Mobile Responsive

PWA

UI Components

Headless Commerce

100% Customizable

Tezos Wallet / Kukai Login

Themes Collection

XTZ and Stripe Payments

Features (II)

Analytics

Optimized Images

SEO

Loyalty

Documentation

Campaigns

Google UX Compatible

Open Source

Optimized Costs

Public Good

Agencies Directory

A strong ecosystem of partners of TZ Storefront.

A tool for content creators, and brands to find developers and full-service web agencies to help them with TZ Storefront and a resource to connect with new customers for the Tezos ecosystem.

DAO

Governance tokens will represent ownership in a decentralized storefront platform.

Token holders will have certain rights that will influence the platform's direction: features to develop, integrations, partnerships, grants, and more.

Token holders will submit proposals and vote on them.

Airdrop criteria TBD.

About me

IVAN MOLTO

VETERAN GITCOIN
